B2 – My Mom Wishes I was a Lesbian: “Coming Out” Experiences of (Bi) sexual Young Adults

A. Del Quest, MSW, LCSW

This workshop will explore some of the unique “coming out” experiences of young adults who are not exclusively gay/lesbian or heterosexual. Participants will learn how a small group of young adults viewed the particular advantages and challenges they experienced as they navigated their social relationships while in high school. We will explore how best to support other young adults who occupy this “middle ground” as they learn to share a coming out story with others.

Intended Audience: Youth & Adults

Main Focus: LGBTQ

Level of Information: Intermediate

Presentation Techniques: Interactive
